BUREAU OF AUTOMOTIVE REPAIR

HELP CALIFORNIA

Breathe Easier

You may qualify for...
\$1,000 to get rid of your vehicle
or up to **\$500** to fix it

Help California Breathe Easier is a campaign by the Bureau of Automotive Repair (BAR) to promote understanding of the negative effects of vehicle air pollution and to help Californians do something about it. Our Consumer Assistance Program (CAP) will pay qualified motorists to voluntarily turn in their high-polluting vehicles or help pay for smog-related repairs. For more information, call (800) 952-5210 or visit www.breatheasier.ca.gov.

Here's how it works:

GET A **\$1,000** FOR TURNING IT IN

-  Vehicle fails smog check
-  Owner calls (800) 952-5210 or visits www.breatheasier.ca.gov for information and to get an application
-  If the application is approved, owner receives a "letter of eligibility" and list of participating dismantlers
-  Owner gets appropriate documents from DMV
-  Owner takes the vehicle to dismantler, who inspects it
-  If the vehicle passes, owner gets a **\$1,000** check for turning in their high-polluting vehicle.

GET UP TO **\$500** IN SMOG-RELATED REPAIR ASSISTANCE

-  Vehicle fails smog check
-  Owner calls (800) 952-5210 or visits www.breatheasier.ca.gov for information and to get an application
-  If the application is approved, owner receives a "letter of eligibility"
-  Owner takes the letter and the vehicle to a Gold Shield Smog Check Station (to locate a Gold Shield station, call (800) 952-5210 or visit www.breatheasier.ca.gov)
-  Owner pays the first \$20 or first \$100, depending on eligibility
-  CAP pays up to **\$500** to diagnose and repair your vehicle

Note: Do not have smog-related repairs performed on the vehicle until your application is approved. Only CAP-authorized repairs performed at a Gold Shield station are eligible for CAP Assistance.
